(*d*) The organising and holding of shows or exhibitions of Kent or Romney Marsh Sheep; the raising or providing of funds for the expenses thereof; the undertaking or managing of combined Members' sheep sales; and the appointing of auctioneers and agents for the conduct of such sales.

Adopted at Ashford, May 21*st*, 1895.

KENT OR ROMNEY MARSH SHEEP.

VOLUME 1.

THE Editing Committee, in publishing, by direction of the Council, the first volume of this Flock Book, consider that it would be to the advantage of all Registered Breeders that a somewhat more fixed and defined type of Sheep should be adopted as the ideal that all should aim at obtaining. They are, of course, thoroughly convinced that it would be utterly impossible for them to define, to the satisfaction of every one, what a Kent or Romney Marsh Sheep should be.

They would, however, venture to suggest that there should be found in every Kent or Romney Marsh Sheep the following points:—Head wide, level between ears, with good thick fore top, no horns, nor dark hair on the pole, which should be well covered with wool. Eyes should be large, bright, and prominent. Face in Ewes, full, and in Rams, broad and masculine in appearance. Nose in all cases must be coal black. Neck should be well set in at shoulders, and strong and thick, and not too long. Shoulders wide, well put in, and level with the back. Chest wide and deep. Back straight, with wide and flat loin. Rump wide, long, and well-turned. Tail set in almost level to the chine. Thighs well let down and developed. The fleece should be of even texture and of a good decided staple from foretop on the head to end of tail. Every effort should be made to reduce the quantity of breech wool. The skin should be of a clean pink colour. The face and legs white with few black spots.

The present volume, which contains 1342 individually recorded rams, 38 entered Flocks, is the best evidence that can be given to

show the need and want of such a Society as has now been successfully started. There has, of course, been some considerable delay in getting out this first volume, but the Council hope in future years, with the assistance of the Members, to have the annual volume ready for issue in September, previous to the October sales.

The Kent or Romney Marsh Sheep has an individual quality which few breeds possess—viz., that it can and does thrive under almost any variation of feed and climate. This is well shown in the fact that it is, in either the lowlands of Kent and Sussex, or in the uplands upon artificial food, the Sheep of the district. Its thriftiness and quick fattening qualities, combined with great constitutional hardiness, are a proof of its value.

Gaining as it will do under this Association that similarity of type which is so great a desideratum, and having, as in the case of several Flocks entered in this book, pedigrees going back to nearly 200 years, it may be confidently expected that it will take a position equal, and perhaps before, those breeds which have hitherto been more prominently brought to public notice.

The Committee are glad to be able to point out the probability that none but registered sheep will be purchased for export in the future. As a matter of fact, the largest buyer of the present year has distinctly stated that none but registered sheep will be purchased by him or his representatives.

The Committee would particularly call the attention of all Foreign Buyers to the absolute protection from fraud of all kinds that the Export Certificate signed by this Association affords the foreign purchaser by reason of the following means :—

1st. Only one Certificate can be or ever is used for a Sheep.

2nd. Every Sheep sold for Export has to obtain the Export Certificate before it leaves the country.

3rd. Every Registered Sheep being tattooed in left ear with the Registered Trade Mark of the Association and owner's Flock number by the official tattooer, and having in the right ear the owner's private ear number,

which mark and numbers are stated on Export Certificate, is able to be identified instantly wherever he is, as well as who bred him.

4th. As under No. 3 every sheep and its owner is able to be identified, a person resident abroad cannot be imposed upon by having a worthless sheep passed on to him as being bred by a well-known breeder, for all he has in case of doubt to do is to turn the ear back and look inside, and he will at once discover if the sheep is Registered, and from the number following official Trade Mark, K E R M, on reference to Flock Book, discover the breeder.

5th. And lastly, any person who has any doubt as to the purity of any Sheep and the genuineness of any Certificate, all of which bear the Corporate seal of the Kent or Romney Marsh Sheep Breeders' Association, and are signed by the Secretary, can at once, by communicating to the Registered office of the Society in England, obtain free of charge all the information he requires.

Kent or Romney Marsh Flocks.

N.B.—All Registered Sheep belonging to Members of the Association are tattooed in the left ear with the Registered Trade Mark of the Association, followed by the Owner's Registered Flock Number. The number of Sheep given are those that were returned as inspected by the Inspectors.

No Ewes have been purchased or added to this Flock since the foundation. Ewes were purchased in 1872 from Mr. George Woolett, of Acrise, Kent, whose Flock was a very old-established one, and one which was well known as possessing great hardiness of constitution and fine wool.

The Sires used in the Flock have been selected with very great care and close attention to trueness of type and character from the Flocks of Messrs. H. Rigden, W. E. Long, W. Millen, Thos. Bayden, Thos. Prebble.

Founded in 1865.

The foundation of this Flock was laid by the purchase of 50 Ewes at the sale of the celebrated prize-winning Flock of the late Mr. Fred Murton, of Smeeth. Ewes having since been added to the Flock in 1876 from Mr. Joseph Foster, of Sprotsland, Willesboro'; in 1891, Mr. Henry Rigden, Lyminge, and Mr. James Chittenden, St. Mary's, Romney Marsh; and in 1894 at Mr. Thomas Powell's dispersal sale 25 selected Ewes were purchased.

Sires in earlier years were used from the best and purest bred Flocks, and since 1890 Rams from the Flocks of Messrs. F. Neame, W. Millen, H. Rigden, T. Powell, and home-bred ones, which have been selected with great care and purchased regardless of cost.

FLOCK No. 5.

FREDERICK NEAME, Macknade, Faversham.

Railway Station, Faversham, London, Chatham, and Dover Railway.

Founded in 1870.

The Foundation Ewes of this Flock were selected from the following well-known, celebrated, and pure-bred and old-established Flocks—*i.e.*, 35 from the late Mr. Frederick Neame, 30 from the late Mr. Frederick Stunt, Higham, Rochester—a Flock in which Mr. Joseph Foster's, of Willesborough, celebrated blood was largely predominant, 60 from Mr. Pellett, of Bradburne, and a draft from Mr. Scott, of Boy's Hall, Ashford, Kent.

The Sires used in the Flock up to 1886 were principally from the flocks of Messrs. Joseph Foster and Frederick Stunt, and since 1887 Rams other than home-bred ones were those bred by Mr. T. Powell, of Lenham, including one purchased at the 1894 sale at a very high figure, and Mr. W. Rigden.

Annual Ram sales have been held since 1877 and selections therefrom have been exported to foreign and colonial buyers. Showing has not been made a practice of, but when specimens have been exhibited they have generally met with success. Recorded pedigrees have been kept for some years.

FLOCK No. 7.

CHARLES FILE and SONS, Ottinge Court, Elham, Canterbury.

Railway Station, Elham, South-Eastern Railway Company.

Founded in 1836.

This is an old-established Flock. It is certain that it had been in existence a considerable time previous to 1836, since which time it has been carefully bred. Only once (in the year 1887) have any Ewes been purchased for putting into the Flock; in this year, however, twenty carefully selected Ewes were purchased at the dispersal sale of the late Mr. Bayden.

The Sires used in the Flock, besides home-bred ones, have been from Flocks of the highest reputation, such as Messrs. Rigden, Murton, Foster, Woolett, and Kingsnorth, and during the last three years the Sires have been those bred by Messrs. Rigden, G. W. Finn, Arthur Finn, C. File, jun., and G. Buley.

The Flock has a very high reputation as a Ram-breeding Flock, Rams having been sold annually for 35 years.

Selections have been exported both of Ewes and Rams to Falkland Islands, Patagonia, Buenos Ayres, Monte Video, New Zealand, and Spain.

CHARLES FILE, Water Farm, Elham, Canterbury.

Railway Station, Elham, South-Eastern Railway Company.

Founded in 1876.

The Ewes purchased to form this Flock came from Mr. John Broadley, Postling Court, Hythe, a very old Flock of good repute, from whom 100 Shearling Ewes were purchased, and the remainder came from that old-established Flock No. 7 in this book. The owner has only once since then added Ewes from outside sources, this being in 1883, when 20 Ewes from the late Mr. W. Woolett's well-known Flock were purchased.

The Sires used in this Flock have been selected from the following well-known breeders:—Messrs. Rigden, T. Powell, Woolett, Arthur Finn, G. W. Finn, and C. File and Sons.

The Annual Sales of Rams has been held with very satisfactory results at Ashford for a number of years past.

Showing has not in any way been made a feature of in the Flock management, but in 1894, owing to the special inducements offered by the local Canterbury committee, some sheep were prepared for Exhibition, and were shown successfully at the Bath and West of England, Royal Counties, and Tunbridge Wells Agricultural Societies' Shows.

Selections have been sold for export to New Zealand.

Founded in 1822. *Transferred to present owner* 1878.

CECIL, JAMES, GLADDISH HULKES, Pettings House, Ash, near Sevenoaks, Kent.

Railway Stations, Sole Street and Wrotham, London, Chatham and Dover Railway Company.

Founded in 1889.

This Flock founded in 1889 by the purchase of 120 Ewes at the dispersal sale of the late Mr. Frederick Stunt's old-established Flock at White House, Higham, Rochester, this Flock having been in Mr. F. Stunt's possession for upwards of 50 years. Since this first foundation lot of Ewes, several other lots have been purchased in order to bring the Flock up to its number, 200, and they were selected with very great care. The larger proportion of these added Ewes came from the Little Hermitage Flock which was under Mr. Hulkes' management from 1887.

Sires used in the Flock have been bred by the following noted breeders :— Messrs. F. Neame, F. Baker, W. Stunt, T. Tickner, H. Rigden, W. Millen, and home-bred ones.

Full, complete, and individual recorded pedigrees of each and every sheep in this Flock has been kept for several years, and thus with every sheep, Ewe, or Ram full individual pedigree both of sire and dam can be given.

The Exhibition of this Flock has been kept principally to Local Societies, and at these it has been very successful.

Several Sheep have been exported both to Falkland Islands and to Argentine Republic.

FLOCK No. 18.

ARTHUR FINN, Westbroke, Lydd.

Railway Station, Lydd South-Eastern Railway Company.

Founded in 1770.

This Flock dates at Westbroke since 1794, but it was really founded in 1770, and may be traced back to the commencement of that century.

The present owner succeeded his father, the late Mr. Thomas Finn, to a part of the Flock in 1882, and to the remainder in 1891. It has always been maintained as a purely grazing one. Specimens from it have been seldom exhibited, except at local shows, when they have usually been successful.

Many prizes have been gained for exhibits of wool.

EWES.—Additions, by purchase of Ewes, have rarely been resorted to. The late Mr. Thomas Finn, when he commenced business, added some from a well-known breeder, Mr. Barling, of Brookland, and in 1878, selections were made at the dispersal sales of the late Mr. John Mortley and Mr. A. Kingsnorth. In 1882 some were purchased at the sale of the late Mr. T. Cobb, and a few from the Flock of Mr. G. W. Finn.

RAMS.—A record of the Rams used since 1854 has been kept.

Since 1883 selections have been carefully made from Messrs. T. Cobb, R. Neve, G. W. Finn, G. Farmer, T. Giles, H. Rigden, T. Powell, A. Roberts, and C. File.

Several sheep from this Flock have from time to time been taken for export.

Ram sales have been held at Ashford for thirty-three years in annual succession.

The Ram Lambs are bred and wintered as lambs in the Marsh.

Founded in 1860.

The foundation Ewes of this Flock were Ewe Tegs purchased by Mr. Charles Leney (the then owner) from Mr. Tickner, of Snave, Romney Marsh. Since its foundation, both under the management of Mr. Leney and his successor (the present owner), particular attention has been paid to keeping the Flock up to a first-class standard. The Ewe Flock have not been added to by purchase since the original start. Rams used in the Flock in addition to home-bred ones have been obtained from the following well-known breeders as Messrs. F. Murton, H. Rigden, Foster (of Ripple), George Farmer, T. Powell, Butcher, A. Sutton, &c.

For ten years (from 1874 to 1884) the Flock was largely exhibited at all of the principle Agricultural Shows (summer and winter) with the greatest success. Latterly—in fact, since 1884—the showyard has been practically left alone. The sales for export have been numerous and at very satisfactory prices. Amongst the countries to which selections have been sent are New Zealand, Australia, Virginia, and Falkland Islands.

The Ewe Flock are individually ear-numbered for private record.

HENRY T. BENSTED, Teynham Court, Sittingbourne.

Railway Station, Teynham, London, Chatham and Dover Railway Company.

Founded in 1879.

The foundation date given is the date when the present owner took possession of the Flock. It, or, rather, the Flock from which these foundation Ewes were obtained, was established early in the present century by Mr. Edward Blaxland, who in turn was succeeded by Mr. John Blaxland, a very noted breeder, and from him Mr. Thomas Bensted took the entire Flock by valuation in 1874, and then in 1879, the present owner taking part of the land with it, took part of the Flock. A further portion of the old Flock came into Mr. H. T. Bensted's hands in 1887, when Mr. Thomas Bensted still further reduced his business. Other additions to the Ewe Flock have been made by purchase at different times from the Flocks of Messrs. Walter Stunt, H. Hilton, the late T. Lake, James P. Barnes, W. Millen, and H. Collard.

Rams have been used from very many of the leading Ram breeders, amongst whom are Messrs. Faunce de Laune, the late R. T. Bensted, G. Farmer, W. Millen, R. Lake, jun., and home-bred ones.

Founded prior to 1812.

This is one of the oldest-established Flocks of Kent or Romney Marsh Sheep being handed down in direct succession. It has been bred for years upon the same continuous lines of management. Ewes have but in few instances been added by purchase to the Flock, and where done so they have, generally speaking, been either bred by or descended from Mr. R. Neve's Registered Flock No. 37.

As to Rams, up to 1890 records show that those purchased came chiefly from Messrs. R. Neve and H. Rigden, and from 1890 to 1895 the purchased Rams, which were but few, for home-bred sheep, have been largely used have been those bred by W. Millen and H. Rigden.

FLOCK No. 37.

R. NEVE, Benenden, Cranbrook, Kent.

Railway Station, Cranbrook, South-Eastern Railway Company.

Founded in 1811.

The late Mr. Thomas Neve, of Benenden, Kent, who founded this Flock in 1811, bred the same for many years with care and close attention, keeping in view the fundamental necessities and peculiarities of the Kent or Romney Marsh Sheep, which are hardiness of constitution, first-class grazing qualities, and aptitude to fatten.

In 1853, his son, Mr. Richard Neve, the present owner, entered into partnership, at which date the Flock numbered 1000 Ewes, and in 1895 it had increased to 1350, when a dispersion sale, in consequence of advancing years, reduced it to its present numbers.

Two notable features in connection with this Flock are that only Rams from breeders in Romney Marsh have ever been used, and that rarely have any Ewes been bought. The result of this practice has been the production of a Flock noted alike for its Flock likeness, true type and character, and the propensity of the Rams annually sold to stamp their produce with a similar type and character.

During the last few years since 1889, Rams from the following noted breeders have been used :—Messrs. Selmes, Scotney; Giles, Romney; executors of T. Finn (now Mr. Arthur Finn, Westbroke); Roberts, Beckley; Arthur Finn, Westbroke; J. Chittenden, St. Mary's.

Founded in 1840.

The Leeds Abbey Flock was established by Mr. Richard Fitch Spiers in 1840 and the entire Flock was in 1872 purchased by the present owner, since which time no Ewes other than those bred in the Flock have been added thereunto, thus enabling the Flock to become one of very matchy appearance, being all of same type and character. The sires that have been used in the Flock during the present owner's ownership, other than home-bred ones, have been selected from the well-known Flocks of Messrs. Murton, Rigden, Powell, Neame, &c. Annual Ram sales are generally held at Maidstone during October in every year, with satisfactory results ; a good demand generally being found for all Rams on offer.

TESTIMONIALS.

Cornwallis Estate Office, Linton Park, Maidstone,
September 30th, 1895.

Dear Sirs,

I am able to testify to a successful season with the Newall Sheep-shearing Machine. Although the men using the machine were perfect novices, they were very quickly able to make satisfactory progress and good work. I may mention that we sheared some 1200 sheep this year, with only one or two slight hitches, possibly owing to inexperience.—I am, yours truly,

(Signed) GEO. E. CHAMPION,
Estate Agent to F. S. W. Cornwallis, Esq.

Manderston,
30th Aug., 1894.

In reply to yours, I may say that I was greatly pleased with the trial I made of Newall's Sheep-shearing Machine this season. With the ordinary shears this work requires considerable experience on the part of the operator before he can clip a sheep neatly. On the home-farm here, however, we clipped 240 last June with Newall's Apparatus, used by a man who had had no experience in such work. He was able to do them, even at starting, both quickly and well. I consider it will be a great acquisition on small holdings, as any handy man may work it.

I hope to have one for next season adapted for attaching to steam power. WILLIAM FAIRBAIRN.

This gentleman is agent to Sir James Miller, Bart., of Manderston, Berwickshire. The man he refers to above sheared 140 sheep in one day with the machine.

J. W. Newall, Esq. Manor Farm, Borstal, Rochester, September 25th, 1895.

I purchased one of your Newall-Cuningham Hand-power Double Sheep-shearing Machines, and the simple construction and splendid manner it did its work should recommend itself to all Flockowners. It took off the wool closer than I have ever seen it cut before, and not the waste there is with the old-fashioned shears. Any intelligent farm man can work it. Our sheep were bad to shear on account of the dry weather, their wool was full of dust, but we did about fourteen sheep per hour with the two shears, including the winding of the fleeces and catching the sheep, and only had two men and a boy to do it all. I consider it a very praiseworthy invention, and will prove to be a great boon to all who use it. Wishing you every success with it.

(Signed) H. J. MAY.

Badger Farm, Shifnal, July 22nd, 1894.

I was able to work the Sheep-shearer in a few minutes after I received your instructions. The machine works very well. I can do about seven lambs an hour, and with a little more practice I shall be able to get on well. The cutters work very well. If I had had the machine to shear my sheep I should have had a deal more wool.

WM. JONES.
